CAREER OBJECTIVE

I want to acquire experience and knowledge in computer development, language programming and anything else regarding technology. Knowing that I must stay up to date to remain in this field, it encourages me to start and pursue my career in web development or cybersecurity.

WORK EXPERIENCE

Freelance work

Phara

Current

- Met the client to understand the goals and requirements for the website
- Designed the website's layout and functionality.
- Established the languages, frameworks, and tolls to build the website.
- Working on the responsive design and the back-end development of the website.
